### **Personal Profile**

Data enthusiast transitioning into Machine Learning and Data Science, with strong analytical mindset and problem-solving abilities developed through hands-on construction experience. Currently pursuing Graduate Certificate in Data Science, combining academic knowledge with practical projects. Demonstrated ability to learn new technologies and apply data-driven solutions.

#### **Technical Skills**

- Programming Languages: Python, R, SQL.
- Machine Learning: Regression, Classification, Clustering, Time Series Analysis.
- Visualization Tools: Tableau, Power Bl.
- Databases: MySQL, PostgreSQL, MongoDB.
- **Development Tools:** Jupyter Notebook, Git, VS Code.
- Business Tools: Advanced Excel.

### **Education**

### **Graduate Certificate in Data Science - GC173KP19**

July 2024 - Feb 2025

RMIT, Melbourne, Australia

Focusing on advanced data analysis techniques, statistical modeling, and machine learning applications.

### **Google Advanced Data Analytics Professional Certificate**

April 2024 - Nov 2024

Coursera Online Platform - Remote, Australia

- Advanced Python programming for data analysis.
- Statistical methods and machine learning fundamentals.
- PACE framework implementation.

## **Google Data Analytics Professional Certificate**

Nov 2023 – April 2024

Coursera Online Platform - Remote, Australia

- Mastered full data analysis lifecycle.
- Completed 8 specialized courses in data analytics.

### **Certificate IV in Information Technology**

2010-2013

Escola Secundária de Vouzela, Portugal

# **Data Analyst Project**

### Cyclistic Bike-Share Analysis, Australia

April 2024

Analysed rider behaviour data to drive membership growth for a major shared bike company.

- Tools: R for data manipulation, Tableau for visualizations.
- Identified distinct usage patterns between casual riders and annual members.
- Recommended data-driven strategies to increase membership numbers.
- Developed interactive dashboards to visualize key findings.
